The Men and Women We Want Jeanne D. Petit,2010 Should immigrants have to pass a literacy test in order to enter the United States Progressive Era Americans debated this question for more than twenty years and by the time the literacy test became law in 1917 the debate had transformed the way Americans understood immigration and created the logic that shaped immigration restriction policies throughout the twentieth century Jeanne Petit

argues that the literacy test debate was about much more than reading ability or the virtues of education. It also tapped into broader concerns about the relationship between gender, sexuality, race, and American national identity. The congressmen, reformers, journalists, and pundits who supported the literacy test hoped to stem the tide of southern and eastern European immigration. To make their case, these restrictionists portrayed illiterate immigrant men as dissipated, dependent paupers; immigrant women as brood mares who bore too many children and both as a eugenic threat to the nation's racial stock. Opponents of the literacy test argued that the new immigrants were muscular, virile workers and nurturing, virtuous mothers who would strengthen the race and nation. Moreover, the debaters did not simply battle about what social reformer Grace Abbott called "the sort of men and women we want." They also defined as normative the men and women they were unquestionably white, unquestionably American, and unquestionably fit to shape the nation's future.

The Ekphrastic Encounter in Contemporary British Poetry and Elsewhere David Kennedy, 2016-03-23

Examining a wide range of ekphrastic poems, David Kennedy argues that contemporary British poets writing out of both mainstream and avant-garde traditions challenge established critical models of ekphrasis with work that is more complex than representational or counter-representational responses to paintings in museums and galleries. Even when the poem appears to be straightforwardly representational, it is often selectively so, producing a virtual work that doesn't exist in actuality. Poets such as Kelvin Corcoran, Peter Hughes, and Gillian Clarke, Kennedy suggests, relish the ekphrastic encounter as one in which word and image become mutually destabilizing. Similarly, other poets engage with the source artwork as a performance that participates in the ethical realm. Showing that the ethical turn in ekphrastic poetry is often powerfully gendered, Kennedy also surveys a range of ekphrastic poets from the Renaissance and nineteenth century to trace a tradition of female ekphrastic poetry that includes Pauline Stainer and Frances Presley. Kennedy concludes with a critique of ekphrastic exercises in creative writing teaching, proposing that ekphrastic writing that takes greater account of performance, spectatorship, may offer more fruitful models for the classroom than the narrativizing of images.
