Toolkit Gavin Bennett, Nasreen Jessani, 2011-06-06 The Knowledge Translation Toolkit provides a thorough overview of what knowledge translation KT is and how to use it most effectively to bridge the know do gap between research policy practice and people It presents the theories tools and strategies required to encourage and enable evidence informed decision making This toolkit builds upon extensive research into the principles and skills of KT its theory and literature its evolution strategies and challenges The book covers an array of crucial KT enablers from context mapping to evaluative thinking supported by practical examples implementation guides and references Drawing from the experience of specialists in relevant disciplines around the world The Knowledge Translation Toolkit aims to enhance the capacity and motivation of researchers to use KT and to use it well The Tools in this book will help researchers ensure that their good science reaches more people is more clearly understood and is more likely to lead to positive action In sum their work becomes more useful and therefore more valuable UN Millennium Development Library: Innovation UN Millennium Project, 2013-06-17 The Millennium

Development Goals adopted at the UN Millennium Summit in 2000 are the world's targets for dramatically reducing extreme poverty in its many dimensions by 2015 income poverty hunger disease exclusion lack of infrastructure and shelter while promoting gender equality education health and environmental sustainability These bold goals can be met in all parts of the world if nations follow through on their commitments to work together to meet them Achieving the Millennium Development Goals offers the prospect of a more secure just and prosperous world for all The UN Millennium Project was commissioned by United Nations Secretary General Kofi Annan to develop a practical plan of action to meet the Millennium Development Goals As an independent advisory body directed by Professor Jeffrey D Sachs the UN Millennium Project submitted its recommendations to the UN Secretary General in January 2005 The core of the UN Millennium Project's work has been carried out by 10 thematic Task Forces comprising more than 250 experts from around the world including scientists development practitioners parliamentarians policymakers and representatives from civil society UN agencies the World Bank the IMF and the private sector This report argues that meeting the Millennium Development Goals will require a substantial reorientation of development policies to focus on key sources of economic growth particularly the use of scientific and technological knowledge and related institutional adjustments It outlines key areas for policy action including focusing on platform or generic technologies defining infrastructure services as a foundation for technology improving higher education in science and placing universities at the center of local development spurring entrepreneurial activities improving the policy environment and focusing on areas of under funded research for development International Perspectives on Primary Care Research Felicity Goodyear-Smith, Bob Mash, 2017-04-28 International Perspectives on Primary Care Research examines how the evidence base from primary care research can strengthen health care services and delivery tackle the growing burden of disease improve quality and safety and increase a person centred focus to health care Demonstrating the inter professional nature of the discipline the book also features a section on cross nation organisations and primary care networks supporting

research National perspectives are offered from researchers in 20 countries that form part of the World Organization of Family Doctors providing case histories from research rich to resource poor nations that illustrate the range of research development and capacity building This book argues the importance of primary care research especially to policy makers decision makers and funders in informing best practice training primary health care providers and achieving equitable distribution of care

Innovation Calestous Juma, Lee Yee-Cheong, UN Millennium Project. Task Force on Science, Technology, and Innovation, 2005 Describes approaches for effectively applying science technology and innovation to achieving the Millennium Development Goals Outlines core areas for policy action including a focus on platform or generic technologies defining infrastructure services as foundations for technology placing universities at the centre of local development and improving science education spurring entrepreneurial activities improving the policy environment and focusing on areas of under funded research for development

Handbook of Research on Information Technology

Management and Clinical Data Administration in Healthcare Dwivedi, Ashish N., 2009-05-31 This book presents theoretical and empirical research on the value of information technology in healthcare Provided by publisher

EHealth Beyond the Horizon European Federation for Medical Informatics. International Congress, Stig Kjær Andersen, 2008 The first part of the MIE 2008 conference theme eHealth Beyond the Horizon highlights the expectations for the future of ehealth and raises the question What sort of developments in ehealth services can we imagine emerging above the horizon in the years to come EHealth Beyond the Horizon contains a good number of high quality papers giving different perspectives of this future some of them already available today in pilot scale some of them outlined in visions The second part of the theme Get IT There has triggered a large number of papers describing how to create evaluate adjust and deliver products and deploy services in healthcare organizations for the necessary information technology as a basis for the ehealth applications that are essential in order to respond to the challenges of the health systems The papers in the proceedings are grouped by themes according to the submission categories and the supplied keywords As the last theme three doctoral students from different areas of medical informatics were selected to present and discuss their research under the guidance of a panel of distinguished research faculties

Creating and Implementing Public Policy Gemma Carey, Kathy Landvogt, Jo Barraket, 2015-12-14 In order to address major social policy problems governments need to break down sectoral barriers and create better working relationships between practitioners policymakers and researchers Currently major blockages exist and stereotypes abound Academics are seen as out of touch and unresponsive policymakers are perceived to be justifying policy decisions and the community sector seeks more funding without demonstrating efficacy These stereotypes are born out of a lack of understanding of the work and practices that exist across these three sectors Drawing on ground breaking research and partnerships with contributions from senior public servants this book explores the competing demands of different actors involved in policy change It challenges current debates assumptions and reflects a unique diversity of experiences Combined

with differing theoretical perspectives it provides a uniquely practical insight for those seeking to influence public policy This innovative text provides essential reading for community sector practitioners academics and advanced level students in public policy social policy and public administration as well as for public service professionals *How To Do Primary Care Research* Felicity Goodyear-Smith, Robert Mash, 2018-10-10 This practical How To guide talks the reader step by step through designing conducting and disseminating primary care research a growing discipline internationally The vast majority of health care issues are experienced by people in community settings who are not adequately represented by hospital based research There is therefore a great need to upskill family physicians and other primary care workers and academics to conduct community based research to inform best practice Aimed at emerging researchers including those in developing countries this book also addresses cutting edge and newly developing research methods which will be of equal interest to more experienced researchers Encyclopedia of Public Health Wilhelm Kirch, 2008-06-13 The Encyclopedic Reference of Public Health presents the most important definitions principles and general perspectives of public health written by experts of the different fields The work includes more than 2 500 alphabetical entries Entries comprise review style articles detailed essays and short definitions Numerous figures and tables enhance understanding of this little understood topic Solidly structured and inclusive this two volume reference is an invaluable tool for clinical scientists and practitioners in academia health care and industry as well as students teachers and interested laypersons *World Report on Knowledge for Better Health*, 2004 **Government and Research** Maurice Kogan, Mary Henkel, Steve Hanney, 2006-08-05 There has been a flare up in interest in science policy and a key factor in this is the increased interest in analysing the role that research can play in informing policy making A pioneering venture in this field was Government and Research The Rothschild Experiment in a Government Department 1983 Heinemann No other work had penetrated the deepest recesses of government to observe at first hand the attempts of a major department to determine its research agenda through collaboration with leading scientists in a wide range of fields to observe how research was commissioned and then evaluated by scientific teams and how it began to enter the policy blood streams of the departments This revised and augmented version updates the original text for current policy concerns and takes account of changes in science policy studies whilst preserving its essential themes It contains a succinct account of where matters now stand as well as an extended analysis of the themes that continue to dominate research and science policy **Health and Energy Platform of Action report 2020-2022: building connections for better health** World Health Organization, 2024-01-29 Energy is linked to many of the sustainable development priorities including public health gender equality food security clean water education economic growth youth and women s empowerment and climate action The absence of clean and sustainable energy has a significant adverse impact on the health and livelihoods of the poorest populations Around 2 3 billion people mostly in low and middle income countries LMICs still mainly rely on inefficient and polluting fuels and stoves for daily cooking exposing them to health damaging

emissions that result in millions of premature deaths each year Health and livelihood risks are greatest for women and children as they are often tasked with cooking and gathering fuel The traditional use of biomass for cooking also puts the environment and climate at risk by contributing to deforestation and greenhouse gas emissions Around 1 billion people worldwide mostly in poor and rural communities are estimated to be served by health care facilities without any electricity or reliable power supply and only one in two hospitals in sub Saharan Africa has a reliable electricity supply Without adequate and reliable power essential medical devices cannot function basic amenities remain out of reach and delivery of health care services is of substandard quality Unless rapid action is taken the world will not meet its targets under the 2030 Agenda for Sustainable Development and the Paris Agreement In November 2018 during the first World Health Organization WHO Global Conference on Air Pollution and Health Dr Tedros Adhanom Ghebreyesus Director General of WHO announced his vision to build a Health and Energy Platform of Action HEPA to enhance multisectoral collaboration between the health and energy sectors and mobilize the political and financial commitments needed to achieve Sustainable Development Goals SDGs 3 and 7 In response WHO the United Nations Department of Economic and Social Affairs UN DESA the United Nations Development Programme UNDP and the World Bank in cooperation with the International Renewable Energy Agency IRENA and other key stakeholders launched HEPA in May 2019 with an initial focus on improving health through promoting clean fuels and technologies for cooking and accelerating access to electricity for health care facilities Following this announcement in July 2020 HEPA members worked together to develop a strategic workplan with five overarching objectives to strengthen the cooperation between the health and energy sectors and elevate energy access as a key development priority area for public health gender equity climate and sustainable development more broadly see Box 1 HEPA has gained significant momentum since its establishment in 2019 By October 2022 the platform had over 20 member organizations All members are committed to working together and synergizing efforts on the ground to accelerate universal electrification of health care facilities and clean cooking This HEPA action report summarizes the key activities and results achieved and highlights activities under each of HEPA s five objectives
