Hitler s Nazi Germany invaded Poland Thus began the greatest armed struggle in history Within days of the invasion Germany was at war with France Great Britain and much of the Commonwealth but by the end of 1941 by which time Japan and the United States had been plunged into war the conflict had engulfed virtually the entire planet World War II witnessed the mobilisation of more than 100 million military personnel Here was total war on a scale never previously experienced by any of the countries involved The conflict eclipsed everything industry technology the economy and home life It transformed

the lives of an entire generation of men and women who grew up under the shadow of violence separation and loss It was also fought in every conceivable terrain and theatre from the arctic conditions of the Soviet winter to the tropical landscape of the Pacific islands with the battle for seas and skies being equally brutal By the time it ended in September 1945 World War II had claimed the lives of more than 50 million people and it witnessed the only use of nuclear weapons in warfare to this day The World War II Story charts the dramatic narrative of the conflict from its first shots to its final apocalyptic end

World War II Reader's Digest,2003-09-30 World War II the most catastrophic conflict in history was the first truly total war and the first in which in many countries civilians faced dangers every bit as great as those endured by the combatants When it ended more than 70 million people across the globe were dead among them some 400 000 Americans and more than half a million citizens of Great Britain or the British Commonwealth and Empire It can be easy to forget that the war was fought and won by ordinary men and women whose experiences collectively form the truest recollection of these vast events WWII The People's Story combines text based largely on eyewitness accounts from major archives in the US and Britain with audio CDs that use actual recordings from the same archives Comprehensively illustrated in colour and monochrome the narrative draws on the reminiscences of servicemen and civilians men women and children who lived through the most momentous years of the twentieth century The accompanying recordings feature the voices of veterans and survivors as they actually describe events bringing to life the human experience of those years fraught with danger terror and grief Before the light of me **Daring Missions of World War II** William B.
