

The background of the cover is a dramatic painting of a naval battle. A large, dark-hulled ship is engulfed in flames and thick black smoke on the left side. In the center, another ship is visible, also appearing to be under attack. On the right, a bright, streaking missile or rocket cuts through the air. The sky is filled with smoke and fire, creating a chaotic and intense atmosphere. The overall color palette is dominated by yellows, oranges, and greys, emphasizing the destruction and fire of the battle.

WORLD WAR II, *Stalin's War* Sean McMeekin, 2021-04-20 A prize winning historian reveals how Stalin not Hitler was the animating force of World War II in this major new history World War II endures in the popular imagination as a heroic struggle between good and evil with villainous Hitler driving its events But Hitler was not in power when the conflict erupted in Asia and he was certainly dead before it ended His armies did not fight in multiple theaters his empire did not span the Eurasian continent and he did not inherit any of the spoils of war That central role belonged to Joseph Stalin The Second World War was not Hitler's war it was Stalin's war Drawing on ambitious new research in Soviet European and US archives Stalin's War revolutionizes our understanding of this global conflict by moving its epicenter to the east Hitler's genocidal ambition may have helped unleash Armageddon but as McMeekin shows the war which emerged in Europe in September 1939 was the one Stalin wanted not Hitler So too did the Pacific war of 1941-1945 fulfill Stalin's goal of unleashing a devastating war of attrition between Japan and the Anglo Saxon capitalist powers he viewed as his ultimate adversary McMeekin also reveals the extent to which Soviet Communism was rescued by the US and Britain's self-defeating strategic moves beginning with Lend Lease aid as American and British supply boards agreed almost blindly to every Soviet demand Stalin's war machine McMeekin shows was substantially reliant on American material from warplanes tanks trucks jeeps motorcycles fuel ammunition and explosives to industrial inputs and technology transfer to the foodstuffs which fed the Red Army This unreciprocated American generosity gave Stalin's armies the mobile striking power to conquer most of Eurasia from Berlin to Beijing for Communism A groundbreaking reassessment of the Second World War Stalin's War is essential reading for anyone looking to understand the current world order World War Two Jeremy Black, 2004-11-23 Cutting through over half a century of historical build up this new and convincing account of World War II uses a global perspective to explain the complicated course in military terms Black a distinguished military historian bucks the current trend to demilitarise and gives due weight to the campaigns and battles that made up the war In doing so he challenges common interpretations and includes new insights to make this one of the most exciting new histories of the Second World War Covering all the main areas of conflict the chronological approach includes analysis of attacks at land air and sea and a comparison of military resources The focus is always operational but social cultural and political aspects are also included Providing a crucial counterweight to previous histories Jeremy Black's World War Two offers fresh insights into operations at the Eastern Front and during the war against Japan **The Story of World War II** Donald L. Organized and trained during 1943 the 10th SS Panzer Division saw its first action in the spring of 1944 during the relief of an encircled German army on the Eastern Front Several months later in response to the Allied invasion at Normandy the division returned to the West in mid June 1944 Here the division engaged in a series of armored attacks and counterattacks against British and American forces The 10th SS briefly held off a few enemy thrusts but gradually had to fall back to Falaise where the division escaped the Allied encirclement with no tanks and only a fraction of its men The 10th SS Panzer Division next defended against the Allied parachute assault during Operation Market Garden in September 1944 Depleted and now a division in name only the 10th SS fought in Alsace before Hitler sent it to the Eastern Front again There east of Berlin the division participated in the final battles to enable the escape of German soldiers and civilians from Soviet captivity Big Week Bill Yenne,2014-02-04 In just six days the United States Strategic Air Forces changed the course of military offense in World War II During those six days they launched the largest bombing campaign of the war dropping roughly ten thousand tons of bombs in a rain of destruction that would take the skies back from the Nazis The Allies knew that if they were to invade Hitler s Fortress Europe they would have to wrest air superiority from the mighty Luftwaffe The plan of the United States Strategic Air Forces was extremely risky During the week of February 20 1944 and joined by the RAF Bomber Command the USAAF Eighth and Fifteenth Air Force bombers took on this vital mission They ran the gauntlet of the most heavily defended air space in the world to deal a death blow to Germany s aircraft industry and made them pay with the planes already in the air In the coming months this Big Week would prove a deciding factor in the war Both sides were dealt losses but whereas the Allies could recover damage to the Luftwaffe was irreparable Thus Big Week became one of the most important episodes of World War II and coincidentally one of the most overlooked until now
