Taking The Adventure Faith And Our Kinship With Animals:

Taking the Adventure Gracia Fay Ellwood, 2014-11-11 What is the relationship between faith especially Christian faith and a lifestyle that respects animals as our neighbors and kin Why should faith entail a commitment to vegetarianism Are animals meant to be heirs of the kingdom of God as well as human beings Taking the Adventure offers answers to these questions in the context of important biblical themes of Eden and Exodus of the prophetic imperative of Jesus as a prophet proclaiming liberty to the oppressed and the captives of the feast of the kingdom of the resurrection and life beyond death It explores imagery from familiar novels such as A Christmas Carol and The Hobbit that deal with cravings anxiety and true abundance It proposes that committing ourselves to live in God given peace with all living beings and sharing with others the good news of that peace is an adventure worth the best we can give an arduous and painful yet joyous adventure climaxing in return to the heart of God

Hungry Beautiful Animals Matthew C. Halteman, 2024-11-12 A heartfelt humane and even hilarious account of why rule obsessed veganism fails and how a focus on flourishing can bring about an abundant future for all In Hungry Beautiful Animals philosopher Matthew C Halteman shows us how despite all the forces arrayed against going vegan we can create an abundant life for everyone without using animals for food Going vegan must be about flourishing not shaming and blaming ourselves Hungry Beautiful Animals is a book of action of forgiveness and love This timely exploration of the profound impact of our dietary choices on both individual and collective flourishing is essential reading for anyone who eats Bryant Terry James Beard award winning author of Vegetable Kingdom This is a book of sacred truths the kind of thing you read and your soul forever registers Kathy Freston New York Times best selling author of The Lean

With Roots and Wings Jay B. McDaniel, 2009-06-26 In With Roots to be open to the insights of people of other faiths as well as to share our own and to become centered on God McDaniel shows where the new universe story of Thomas Berry and Brian Swimme and the Christian story meet and differ where they complement and where they supplement one another With Roots Wings shows how to experience both green grace that comes from opening one's self to the rhythms of the cosmos and red grace symbolized in the crucifixion of Christ both of which are vital to a Christian ecological spirituality and praxis Most impressive is McDaniel's ability to absorb and reflect important lessons Christians can learn from Native Americans from Buddhists and Hindus from Muslims and Jews The complexity of the issues he addresses and his ability to explain them simply and clearly makes With Roots and Wings must reading for the general reader as well as ecological activists clergy and laity alike Nothing else comes near it in depth power and insight

Kinship and Killing Katherine Wills Perlo, 2009 Through close readings of Jewish Christian Islamic and Buddhist texts Katherine Wills Perlo proves that our relationship with animals shapes religious doctrine particularly through the tension between animal exploitation and the bonds of kinship She pinpoints four different strategies for coping with this conflict The first is aggression in which a divinely conferred superiority or karma justifies animal usage The second is evasion which emphasizes benevolent aspects of the human animal relationship within the

exploitative structure such as the image of Jesus as a good shepherd The third is defense which acknowledges the problematic nature of killing leading many religions to adopt a propitiation mechanism such as apologizing for sacrifice And the fourth is effective defensive which recognizes animal abuse as inherently unethical As humans feel more empathy toward animals Perlo finds that adherents revise their interpretations of religious texts Preexisting ontologies such as Christianity s changing God or Buddhism s principle of impermanence along with advances in farming practices and technology also encourage changes in treatment As cultures begin to appreciate the different types of perception and consciousness experienced by nonhumans definitions of reality become complicated and humans lean more toward unitary accounts of shared existence These evolving attitudes exert a crucial influence on religious thought Perlo argues moving humans ever closer to a nonspeciesist world Our Dumb Animals ,1909
