**Behaviour: The Lost Modules** Jen Foster, 2023-09-02 Oh hey Thank you for being here Let me introduce myself My name is Jen Foster and I am an educator A few years ago I started an Instagram account dedicated to teaching I started by just sharing everything and anything and loving having a community of keen beans like me But it didn't take me long to spot something quite odd Scrolling through thousands of teachers experiences around the world there were two things that stood out like a sore thumb Behaviour was this huge obstacle in teaching The guidance around behaviour was either inconsistent vague or unhelpful So I decided to learn everything I could about behaviour I explored outside the

education shelves and bought way too many books about neuroscience positive psychology business and parenting The more I learnt the more I reflected on my own practice and my own experiences in schools I asked educators in my community their opinions on behaviour and this is what I found out 93% felt that they had inadequate behaviour training as a trainee teacher 88% feel they have inadequate behaviour training as a qualified teacher So isn't it about time we shined a spotlight on behaviour Behaviour The lost Modules is the book you wish you had read before stepping into a classroom The book you wish had been required reading on your university reading list A book that is practical easy to read and tells you what you need to know about behaviour in primary schools A book by a teacher for teachers drawing on common sense personal experiences and current research *Teach Now! ### **Equity Learning Communities**

Daniel L. Reinholz, 2025-07-31 Concrete strategies for making higher education instruction more equitable via professional learning groups that use empirical classroom data to guide iterative incremental changes In Equity Learning Communities Daniel Reinholz recommends sustained collaborative professional development group meetings as a launchpad for higher education instructors to enhance classroom equity and inclusivity In Reinholz's approach community members make use of debrief sessions collaborative problem solving and empirical classroom data such as participation data to guide iterative incremental changes in instruction that increase empathy and trust improve instructor student relationships and build from student strengths The book offers a comprehensive look at the process of professional learning via equity learning communities Reinholz makes evident the tremendous benefits of such communities and community cultural wealth He presents in depth case studies of six instructors diverse in terms of race gender disability discipline and professional experience who made transformative changes to their mindset perspective and instruction as participants in such communities This work gives instructors a host of explicit strategies and educational moves for becoming aware of and quashing inequities as they arise It also provides a wealth of practical wisdom that faculty leaders instructional coaches and

professional developers could apply to their own equity work It serves as a blueprint for readers to create and sustain their own learning communities from picking an appropriate measure to collecting data and organizing collaborative professional learning around those data     Time and Learning in the Special Education Classroom Libby Goodman,1990-01-01 Focusing on the relationship between time use and learning results this book explores the instructional processes in special education classrooms The text emphasizes teacher control of time resources at the classroom level instructional management strategies that conserve and enhance instructional time and the efficient and effective use of learning time to enhance student performance outcomes The dual dimensions of time and task are incorporated throughout the text to communicate the essential message that time and the appropriate use of time go hand in hand in the classroom Adequate time alone is a necessary but insufficient condition for maximal learning to occur Time and Learning in the Special Education Classroom strikes a balance between research and application to achieve a scholarly yet readable text relevant for both pre service and in service teachers supervisors principals administrators and teacher educators
