with exercise programs designed for people who were either fat or fit not skinny guys who just want to put on some muscle

because most chubby guys aren't filling out their shirts with 20 inch biceps either So the goals are the same PACK ON MASS IN THE RIGHT PLACES and the recipe is the same BOOST TESTOSTERONE WITH COMPOUND LIFTS the Big 3 of squat bench and deadlift What's ideal for bulking also happens to be ideal for fat loss Most workout programs focus on losing weight cutting fat and gaining lean muscle mass but losing weight is the opposite of what skinny guys need and building lean muscle takes years Nobody has time for that Lumberjack Fit is a repeating regimen of compound lifts necessary for boosting testosterone a requirement for size gains in the 4-6 rep range necessary for activation of fast twitch muscles fibers a requirement for size gains superset for efficiency with secondary exercises that you choose to keep you motivated It's all the stuff we've known for centuries in one place without all stuff we've created since Bodybuilding Powerlifting and Crossfit became marketable industries full of opportunists looking to make a buck The workout journal at the end of this book is to keep you motivated Writing down the exercises weight lifted and reps every workout not only gives you a baseline of where to start your next workout based on what you achieved last time but it serves as a written record of your pound by pound progress
