[Israel's Military Operations in Gaza](#) Marouf

Hasian Jr, 2016-03-31 Civilians in Gaza and Israel are caught up in complex violent situations that have overstepped conventional battle lines Both sides of the conflict have found ways to legitimate the use of violence and continually swap accusations of violations of domestic and international humanitarian laws Israel's Military Operations in Gaza provides an ideological critique of the legal military and social media texts that have been used to legitimate historical incursions into the Gaza with special focus on Operation Protective Edge It argues that both the Palestinians and the Israelis have deployed various forms of telegenic warfare They have each used argumentative rhetorics based on competing interpretations of events and are locked in a battle to convince international audiences and domestic constituencies of the righteousness of their causes This critical genealogical study analyses a range of texts and images from selfies circulated near the Gaza border to judicial opinions produced by the High Court of Israel With its multidisciplinary approach and original analysis of the Israel Gaza situation this book will be of interest to students and scholars of Middle East studies and the Arab Israeli conflict as well as security studies and communication studies

**Natural Killer T-cells** Nathan V. Fournier, 2008 Natural killer T NKT cells are a heterogeneous group of T cells that share properties of both T cells and natural killer NK cells Many of these cells recognize the non polymorphic CD1d molecule an antigen presenting molecule that binds self and foreign lipids and glycolipids Upon activation NK T cells are able to produce large quantities of interferon gamma IL 4 and granulocyte macrophage colony stimulating factor as well as multiple other cytokines and chemokines such as IL 2 and TNF alpha NKT cells seem to be essential for several aspects of immunity because their dysfunction or deficiency has been shown to lead to the development of autoimmune diseases such as diabetes or atherosclerosis and cancers NKT cells have recently been implicated in the disease progression of human asthma The clinical potential of NKT cells lies in the rapid release of cytokines such as IL 2 IFN gamma TNF alpha and IL 4 that promote or suppress different immune responses

**MY LIFE IN THE STRUGGLE FOR THE LIBERATION OF ZIMBABWE** M Mpofu, 2014 This is an elucidation of accumulation of personal experience within the context of socio cultural internalization in particular and the socio political environment in general that is intended to provide some insights into a plethora of ingredients that converged and crystallized into a catalytic impetus that socially transformed my generation from village boys to highly politicised freedom fighters during the 1960s to the 1970s in Rhodesia I have done this by tracing the footprints of my experience which show multiple stages and strands of cultural social political and physical determinants that landed themselves on my growth path starting from socialization in my parents home all the way through the local community traditions and schooling to active service for the freedom of my country at local and national levels Here the crucial elements that moulded my social being in a very profound way have been ventilated to show when and how I became able to distinguish antagonistic differences between justice and injustice at my very early age Proceeding from here I have brought out how I teamed up with others whose political outlook and aspirations were identical with mine as we all voluntarily joined anti colonial struggle starting from invisible low

intensity activism in schools and towns up to risky adventures that finished up in armed struggle within a broad national perspective the narration further demonstrates the domesticity of the movements that championed liberation struggle as drivers were citizens who grew up in the rural villages and urban African Townships where they progressively became aware that they were born unlike their parents in a country under colonial administration In doing all this I had to spell out how my interaction with informative social vectors brought awareness on how my country Zimbabwe was colonized and governed by Europeans without the consent of the indigenous natives who showed their resentment to foreign rule by rebelling First Chimurenga within six years of colonization but failed only to succeed in the second rebellion Second Chimurenga after ninety years of racial domination Furthermore I believe I have laid bare how I became a civilian freedom fighter together with peers of my generation in the second rebellion where intolerable weight of oppression caused us to abandon nonviolent methods of struggle in favour of using arms of war to face a cobweb of security forces led by superb military machine of the colonial state wherein lay formidable challenges confronting rebelling citizens the armed struggle phase meant that fighters and their collaborators had to face those challenges in the theatre of operation Initially they exhibited more weaknesses than strengths and lost opportunities that were in the form of abundance of political support of masses of people in the country the overall process of the struggle exhibited strengths and costly weaknesses right from the civilian phase up to the armed struggle phase with or without my participation It was not until freedom fighters gained experience in planning and undertaking field operations that they became able to apply appropriate tactics that caused the struggle to gain sustainability in the theatre of operation More importantly the narration makes the point that the Rhodesian colonial system was presided over by European settler leaders who hardly recognized African citizens as entitled to participation in governance of the country with equal rights in social political economical and juridical spheres of societal setting of two main races Exclusion of African from consensus on the act of Unilateral Declaration of Independence UDI by Ian Douglas Smith was a fundamental blunder that precipitated nationwide fury that led to a civil war in which a deprived citizen fought against a privileged citizen who was indoctrinated with falsehood that his adversary freedom fighter was sponsored by foreign powers of a communist type while the latter rightly believed that he was fighting to free his country from racially imposed injustices of deprivation More importantly the narration lays emphasis on the creation of massive political structures throughout the country well below the radar of legality for the purpose of sustaining guerrilla warfare in the face of the super professional Rhodesian security forces In this connection the final phase of armed struggle demonstrated to all at home and abroad that freedom fighters became significantly effective because they were politically rooted in the oppressed population whence came their strength against superior military hardware and a water tight counter insurgency strategy of the Rhodesian security forces Essentially it was that political strength not Communist powers or betrayal by the West which caused all stakeholders to become willing to come to a negotiating table at Lancaster House in Britain in 1979 to settle the armed

conflict decisively      **The Handbook of the International Law of Military Operations** Terry D. Gill, Dieter Fleck, 2015-12-10 The second edition of this well received handbook provides a comprehensive overview and annotated commentary of those areas of international law most relevant to the planning and conduct of military operations It covers a wide scope of military operations ranging from operations conducted under UN Security Council mandate to collective self defence and consensual and humanitarian operations and identifies the relevant legal bases and applicable legal regimes governing the application of force and treatment of persons during such operations It also devotes attention to the law governing the status of forces military use of the sea and airspace and questions of international criminal responsibility for breaches of international law New developments such as cyber warfare and controversial aspects of law in relation to contemporary operations such as targeted killing of specific individuals are discussed and analysed alongside recent developments in more traditional types of operations such as peacekeeping and naval operations The book is aimed at policy officials commanders and their military legal advisors who are involved with the planning and conduct of any type of military operation and is intended to complement national and international policy and legal guidelines and assist in identifying and applying the law to ensure legitimacy and contribute to mission accomplishment It likewise fulfils a need in pertinent international organizations such as the UN NATO Regional Organizations and NGOs It also serves as a comprehensive work of reference to academics and is suitable for courses at military staff colleges academies and universities which devote attention to one or more aspects of international law treated in the book This mix of intended users is reflected in the contributors who include senior former policy officials and military legal advisors alongside academics engaged in teaching and research in these areas of international law      **Programmatic EIS for Accomplishing Expanded Civilian Nuclear Energy Research and Development and Isotope Production Missions in the United States, Including the Role of the Fast Flux Test Facility** , 2000      Cultural Politics of Targeted Killing Kyle Grayson, 2016-07-15 The deployment of remotely piloted air platforms RPAs or drones has become a defining feature of contemporary counter insurgency operations Scholarly analysis and public debate has primarily focused on two issues the legality of targeted killing and whether the practice is effective at disrupting insurgency networks and the intensive media and activist scrutiny of the policy processes through which targeted killing decisions have been made While contributing to these ongoing discussions this book aims to determine how targeted killing has become possible in contemporary counter insurgency operations undertaken by liberal regimes Each chapter is oriented around a problematisation that has shaped the cultural politics of the targeted killing assemblage Grayson argues that in order to understand how specific forms of violence become prevalent it is important to determine how problematisations that enable them are shaped by a politico cultural system in which culture operates in conjunction with technological economic governmental and geostrategic elements The book also demonstrates that the actors involved what they may be attempting to achieve through the deployment of this form of violence how they attempt to

achieve it and where they attempt to achieve it are also shaped by culture The book demonstrates how the current social relations prevalent in liberal societies contain the potential for targeted killing as a normal rather than extraordinary practice It will be of great use for academic specialists and graduate students in international studies geography sociology cultural studies and legal studies International Peacekeeping: The Yearbook of International Peace Operations Harvey Langholtz, Boris Kondoch, Alan Wells, 2004-11-01 International Peacekeeping is devoted to reporting upon and analyzing international peacekeeping with an emphasis upon legal and policy issues but is not limited to these issues It is recognized that in today's world there is a wealth of information available from the internet and through other sources It is therefore the goal of this Yearbook to make this information available in one publication which both organizes and records events over the course of a year through analytical articles a chronicle primary documents and a bibliography Topics include inter alia peacekeeping peace war conflict resolution diplomacy international law international security humanitarian relief humanitarian law and terrorism The Yearbook is of scholarly quality but is not narrowly theoretical It provides the interested public diplomats civil servants politicians the military academics journalists NGO employees and serious citizens with a document of record comment and a starting point for further research on peacekeeping and related topics This is achieved not only by the provision of basic documents on CD ROM such as Security Council Resolutions and Reports of the UN Secretary General but also by expert commentaries on world events Peacekeeping is treated in a pragmatic light seen as a form of international military cooperation for the preservation or restoration of international peace and security Attention is focused not only on UN peacekeeping operations but other missions as well This Yearbook is the continuation of the journal *International Peacekeeping* *Killer Weed* Susan C. Boyd, Connie Carter, 2014-02-05 Since the late 1990s marijuana grow operations have been identified by media and others as a new and dangerous criminal activity of epidemic proportions With *Killer Weed* Susan C Boyd and Connie Carter use their analysis of fifteen years of newspaper coverage to show how consensus about the dangerous people and practices associated with marijuana cultivation was created and disseminated by numerous spokespeople including police RCMP and the media in Canada The authors focus on the context of media reports in Canada to show how claims about marijuana cultivation have intensified the perception that this activity poses significant dangers to public safety and thus is an appropriate target for Canada's war on drugs Boyd and Carter carefully show how the media draw on the same spokespeople to tell the same story again and again and how a limited number of messages has led to an expanding anti drug campaign that uses not only police but BC Hydro and local municipalities to crack down on drug production Going beyond the newspapers *Killer Weed* examines how legal political and civil initiatives that have emerged from the media narrative have troubling consequences for a shrinking Canadian civil society **Mating Instinct** Katie Reus, 2023-12-12 She left because he couldn't love her the way she needed Human Kat Saburova had her heart broken by the Shifter Council's ruthless enforcer So she left and never looked back A year later an attack that nearly kills her brings him

back into her orbit but she wants nothing to do with him Now he ll do anything to save her Shifter Jayce Kazan has made countless enemies but for a short time he found peace with a sweet funny human Though it tore his heart out he let her go for her own good But someone tried to kill her and inadvertently turned her into a shifter And now that she s in danger he ll cross every line to save her Even if that means saving her from herself As he fights for a second chance the extremists who almost killed her once are looking to finish the job SECOND EDITION This updated and revised edition is the author s preferred text Author s Note Mating Instinct was originally published by Berkley and the rights have recently reverted back to me Since then I ve done some light editing and rewriting So if the cover looks new but the title feels familiar that s why

Soft Target Hardening Jennifer Hesterman, 2018-12-07 The US government spends billions of dollars to secure strategic and tactical assets at home and abroad against enemy attack However as hard targets such as military installations and government buildings are further strengthened vulnerable soft targets are increasingly in the crosshairs of terrorists and violent criminals Attacks on crowded spaces such as churches schools malls transportation hubs and recreational venues result in more casualties and have a powerful effect on the psyche of the populace Soft Target Hardening Protecting People from Attack Second Edition continues the national dialogue started by the first edition by providing case studies best practices and methodologies for identifying soft target vulnerabilities and reducing risk in the United States and beyond Soft target attacks steadily climbed in number and scale of violence since the first edition of this book New tactics emerged as terrorists continually hit the reset button with each attack In this volatile ever changing security environment plans to protect people and property must be fluid and adaptable Along with new hardening tactics such as the use of tactical deception to disguise conceal and divert the author has updated the text with new case studies to reflect and respond to the fast moving transformation in methods from more complex and organized forms of terror to simpler yet still devastating approaches This book is a must read for those who secure own and operate soft target facilities and for citizens who want to protect themselves and their families from attack Soft Target Hardening Second Edition was named the ASIS International Security Industry Book of the Year in 2019
