Taxation In The Netherlands:

Taxation in the Netherlands Gerrit te Spenke, Mark de Vries, 2011-01-01 The book summarizes the main features of the Netherlands tax system. It provides foreign investors and business people with basic information on the tax implications of their business plans in the Netherlands. The various chapters deal with the General Tax Act, individual income tax, corporate income tax, wage tax, the social security system, dividend withholding tax, VAT, estate tax, gift tax, transfer tax, insurance tax, international and European tax law.

Capital Income Taxation in the Netherlands Alexander Klemm, Mr. Shafik Hebous, 2021-05-20 This paper looks at capital income taxation in the Netherlands from an international and domestic perspective. The Netherlands is a major conduit country for FDI. Recent reforms taken by the Dutch authorities, as well as public statements, represent a strong move to address international tax avoidance, but it is too early to be able to detect the impact. In the data and measuring tax avoidance even in the past is fraught with difficulties. Domestically, the unique system which for many financial assets effectively taxes wealth rather than capital income leads to inequities and distortions. Owner-occupied housing is strongly tax favored and in many cases effectively subsidized. Various reforms, not necessarily of a fundamental nature, would improve efficiency and equity.

Taxation of International Performing Artists Dick Molenaar, 2005 The special tax rules for performing artists lead to obstacles. This book considers the problems regarding, for example, the determination of taxable income and the non-deductibility of expenses and tax credits in the country of residence and gives clear examples of excessive taxation.

Tax Planning with Holding Companies - Repatriation of US Profits from Europe Rolf Eicke, 2009-01-01 The book deals with tax planning with holding companies located in Europe, Asia or the Caribbean. It analyses the problem of repatriating US profits from Europe, going far beyond the routing of income via different companies. Instead, the approach includes an analysis of the interdependencies between international tax competition, holding company regimes and tax planning concepts in order to establish a basis for tax planning measures regardless of the fast-changing legal environment for holding companies in the different countries.

Procedural Rules in Tax Law in the Context of European Union and Domestic Law Michael

Lang, 2010-01-01 EUCOTAX: European Universities Cooperating on TAXes is a network of tax institutes currently consisting of eleven universities: WU Vienna University of Economics and Business in Austria; Katholieke Universiteit Leuven in Belgium; Corvinus University of Budapest Hungary; Université Paris I Panthéon Sorbonne in France; Universität Osnabrück in Germany; Libera Università Internazionale di Studi Sociali in Rome and Università degli Studi di Bologna for the research part in Italy; Fiscaal Instituut Tilburg at Tilburg University in the Netherlands; Universidad de Barcelona in Spain; Uppsala University in Sweden; Queen Mary and Westfield College at the University of London in the United Kingdom; and Georgetown University in Washington DC, United States of America. This network aims at initiating and coordinating both comparative education in

taxation through the organisation of activities such as winter courses and guest lectures and comparative research in the field by means of joint research projects international conferences and exchange of researchers between various countries European Union law barely deals with procedural questions even though they are essential for proper implementation of European Union law The European Court of Justice has developed procedural principles in its rulings which also affect proceedings before national authorities This is due to the fact that the principle of procedural autonomy of the Member States finds its limits where European Union law might be infringed Therefore domestic procedural principles and rules of the EU countries need to be interpreted in the context of European Union law requirements This timely work seeks to identify the differences between the domestic procedural rules and principles of an array of EU and non EU countries and analyse them in the context of European Union law requirements Specific attention is paid to the impact of State aid rules on procedural law in tax matters on constitutional law requirements as well as tax treaty law issues Since customs law is already harmonized in the form of the Community Customs Code it serves as a starting point to examine the extent to which harmonized procedural law is possible Harmonized procedural law is also discussed in the context of a possible future Common Consolidated Corporate Tax Base as well as an EU tax levied at the European Union level UCITS and Taxation Raymond Adema, Raymond P.
