**Philosophy and Other Bad Habits** Richard Van Ingram, 2011 **The Silencing of the Lambs** Michael L. Brown, 2022 Conservative Christians in the United States today are feeling the fire thrown at them by liberal influencers who are pressuring Americans to pick up a left wing agenda and abandon biblical values Now is not the time for the church to stay quiet on the issues that will determine America s future This is the moment for the church to reject the left s muzzle and turn the tide for this nation Dust jacket flap **2016: the Campaign Chronicles** JD Foster, 2017-01-19 How did Donald Trump a man with zero direct political experience and no particular affiliation to either political party go in the span of a two year

campaign from preposterous aspirant to President elect of the United States It will likely take years if not decades before a confident consensus develops but formulating an answer begins with chronicling the key events in the campaign in the country and sometimes in the wider world as they happened This book is an attempt to provide such a chronicle by no means the last word but perhaps a useful and entertaining first word toward answering the question What the heck

**The 2016 Contenders: Rand Paul** Joel Achenbach, The Washington Post, 2015-07-28 Presidential candidates are a breed apart often propelled by traits that have shaped their careers and have deep roots in personal histories Often their greatest strength can turn at supernova speed into their greatest weakness The exact qualities that set them apart from the field trip them up eventually over the long haul of a presidential campaign Rand Paul's ability to sell himself as the most libertarian of the presidential candidates defending civil liberties at home and opposing military adventurism and nation building abroad is what can set him apart But those unconventional ideas could also box him in Libertarians don't win national elections unless you count Thomas Jefferson in 1800 and 1804 In this series of eBooks The Washington Post is exploring in depth all these key characteristics of the leading presidential contenders the very characteristics that could help make one of them the country's next commander in chief or forever sink their presidential ambitions

**Deception** Rand Paul, 2023-10-10 Senator Rand Paul was on to Anthony Fauci from the start Wielding previously unimaginable power Fauci misled the country about the origins of the Covid pandemic and shut down scientific dissent One of the few leaders who dared to challenge America's Doctor was Senator Rand Paul himself a physician Deception is his indictment of the catastrophic failures of the public health bureaucracy during the pandemic Senator Paul presents the evidence that The Covid virus was likely the product of gain of function research at the Wuhan lab in China research funded in part by the U S government Taxpayer dollars for that research were deceptively funneled to Wuhan without the required regulatory review Fauci and his scientific

yes men knew from day one about Covid s origin and tried to cover it up Fauci and his allies ruthlessly attacked everyone including highly qualified scientists who threatened to reveal the truth about the pandemic Why Hundreds of millions of dollars of grants and unreported royalties were at stake and heads would roll if the truth got out It almost worked At Fauci s insistence the government imposed needlessly extreme lockdowns on Americans at the cost of immense personal and economic destruction Covid 19 was deadly but the real killer was the coverup led by America s most durable medical bureaucrat a man for whom the truth was too often expendable Senator Paul makes a powerful case that funding dangerous bioengineering in a totalitarian country is madness If we don t heed this warning the next pandemic could be far worse

Killing Machine Lloyd Gardner,2013-11-12 With Obama s election to the presidency in 2008 many believed the United States had entered a new era Obama came into office with high expectations that he would end the war in Iraq and initiate a new foreign policy that would reestablish American values and the United States leadership role in the world In this shattering new assessment historian Lloyd C Gardner argues that despite cosmetic changes Obama has simply built on the expanding power base of presidential power that reaches back across decades and through multiple

administrations The new president ended the enhanced interrogation policy of the Bush administration but did not abandon the concept of preemption Obama withdrew from Iraq but has institutionalized drone warfare including the White House's central role in selecting targets What has come into view Gardner argues is the new face of American presidential power high tech secretive global and lethal Killing Machine skillfully narrates the drawdown in Iraq the counterinsurgency warfare in Afghanistan the rise of the use of drones and targeted assassinations from al Awlaki to Bin Laden drawing from the words of key players in these actions as well as their major public critics With unparalleled historical perspective Gardner's book is the new touchstone for understanding not only the Obama administration but the American presidency itself **Journal of the Senate of the United States of America** United States.
